EVERGREEN PARK PUBLIC LIBRARY FOUNDATION

*Dedicated to enhancing the
quality and scope of the Library's resources*

What is the Mission of the Library Foundation?

The Evergreen Park Public Library Foundation is a 501(c)3 organization dedicated to enhancing the quality and scope of the Library's resources. We accomplish our mission through fundraising, advocacy, and memorable events that draw people together to celebrate community and share an appreciation for the Library and its works. Public funding can only go so far. The Foundation was established in 2003 to solicit diversified support to supplement property tax-based funding for library programs, community outreach services, materials, technology, and capital improvements. The Foundation Board is comprised of community members from the private and public sector who donate their time and expertise to accomplish the Foundation's goals. Evergreen Park Public Library and the Foundation work together to determine where private funds will have the greatest impact.
